- Airtable (for automation and

About Me

I am a customer-focused Chat & Email Support / Tier 1 Technical Support Specialist skilled in handling technical issues, improving customer satisfaction, and supporting users through tools like Zendesk, Freshdesk and HubSpot.

I also work with Airtable automation and custom CRM design, helping teams streamline workflows and reduce manual processes.

With one year of experience in the American title search industry, I am confident in reading and understanding U.S. real estate documents, deeds, and title commitments, and have been an active part of multiple customer onboarding processes.

Currently completing my BS in Software Engineering, I have a solid understanding of programming concepts with knowledge of C++ and JavaScript.

I am detail-oriented, quick to learn, and passionate about delivering effective technical and customer support.

WORK EXPERIENCE (US EST TIMINGS)
